

GRAS RA0132

Dehumidifier for 1/2" microphones

Length: 48 mm

Inner threading for preamp.: 11.70-60 UNS-2

Outer threading for mic.: 11.70-60 UNS-2

Material: stainless steel

For use when humidity levels are high and only with a rear-vented 1/2" microphone.

An indicator placed on the side of the dehumidifier shows when it needs to be dried out before further use.

Introduction

The dehumidifier contains silica gel and removes humidity from the air in the microphone. When being saturated silica gel changes colour from orange/amber to white. The humidity removing properties are regained by drying it out. To to this, heat it for some hours at 100 degrees Celcius (or longer at lower temperature).

Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use.

On consumables like batteries, cables and windscreen we offer a 6 month warranty.

ABOUT GRAS SOUND & VIBRATION

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones to industries where acoustic measuring accuracy and repeatability is of utmost importance in R&D, QA and production. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, and consumer electronics. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect and trust.
